

**Monahans-Wickett-Pyote ISD
Program for
Gifted and Talented Students**

“LEADING THE WAY”

MWP-ISD believes the responsibility of the district is to provide educational opportunities to meet the needs and abilities of all students promoting academic excellence and equity for the entire student body. The mission of this program therefore is to develop the potential for students to increase their personal contributions to the school, the community, the state, and the nation.

In 2008, the Board of Trustees placed in policy a new plan outlining the future for the Gifted and Talented Program. The program plan seeks to ensure that all students are provided with experiences that are consistent with the learning characteristics of the gifted and talented students.
